David:

I updated the existing website in osc.net. Just go to osc.net, log in, go to R6 sites, click on my name in the contact drop down, click on TX in the state drop down, and Malone should be the first site to come up, click on the site and you are in. The last polrep I sent was #37. Just click on new polrep, it should come up as #38 and go to town. When you draft, just save and let me know, I will review. Feel free to add anybody you want to the contacts list.
